

Upper Valley Solar Installers

This list is managed by Vital Communities and intended as a reference for Upper Valley residents interested in going solar.

The following is a list of solar installers who have requested to be listed as a company offering solar installation services in the Upper Valley region of Vermont and New Hampshire. All information was provided by the installers listed. All installers listed have completed at least five installs within Vital Communities' service area since 2011. This list has not been vetted or fact-checked by Vital Communities and is not a comprehensive list of solar installers operating in the Upper Valley. Do you know of an installer who should be on this list? Please let us know (contact sarah@vitalcommunities.org).

COMPANY	LOCATION	COMPANY HISTORY	SERVICES PROVIDED

Many happy customers to reference. We do PV Grid tied, AC Coupled (battery) and off grid system specialists. Solar thermal with both flat plate and vacuum tubes. Energy advisors in all forms of efficient space heating and biomass. Customer service & integrity are the highest priorities. Dave Bonta is president- began in solar in 1978.

COMMUNITY SOLAR OPTIONS

Current community solar offering for residents

COMPANY	LOCATION	COMPANY HISTORY	SERVICES PROVIDED
Green Mountain Community Solar www.GMCommunitySolar.com solar@GMCommunitySolar.com 802.588.2063	Groton, VT	Founded in 2014, community solar since 2014	We offer off site installations. We have six Upper Valley located homes and one UV business who have bought into our group off site community solar farms. Eliminating issues common with placement of solar panels – shading, roof penetration, resale, and aesthetics – GMCS allows any Vermonter or VT business, regardless of what utility area they live in, to get the same tax credit, solar feel good and economics by joining a group off-site solar farm. You pay once, save for 30 years with all maintenance born by GMCS and we offer a buy out option.

<p>Norwich Technologies www.ez-pv.com sales@ez-pv.com 802-281-3213</p>	White River Junction, VT	Founded in 2011, community solar since 2015	Norwich Technologies offers customers the option to purchase either onsite solar installation or solar panels in a community solar farm. Community solar farm pricing is all inclusive (including 20 years maintenance, insurance, utility meter fees, and applicable state taxes).
<p>ReVision Energy www.ReVisionEnergy.com fred@revisionenergy.com 603-679-1777</p>	Concord, NH, with an office in Exeter, NH	Founded in 2003, community solar since 2014	ReVision Energy is a full service renewable energy contracting company that provides a full range of engineering, design, installation and equipment service for homes, businesses, municipal buildings and nonprofits. With a thriving Power Purchase Agreement division, ReVision Energy is emerging as the local leader for the growing opportunities available through our Community Solar Farms program.
<p>Solaflect Energy www.solaflect.com jtellerelsberg@solaflect.com 802.649.3700</p>	Norwich, VT	Founded in 2007, community solar since 2014	Solaflect Community Solar Park participants purchase and own their trackers, receiving maximum benefit from solar production. All environmental attributes ("RECs") stay with the Solar Park community—that means our participants save money AND actually go solar. Solaflect Solar Park participants are uniquely positioned to benefit from future advances in solar panel technology. (GMP territory only.)
<p>Soveren Solar soverensolar.com anna@soverensolar.com 603.632.1263</p>	Putney, VT	Founded in 2010	Community Solar. Offsite installations that provide the same benefits as home installed solar without having to have a good solar site.
<p>SunCommon www.suncommon.com taylor@suncommon.com 802.294.4756</p>	Based in Waterbury Center, VT, with an office in White River Junction, VT.	Founded in 2012, community solar since 2014	With our mission to break down the barriers that get in the way of your achieving energy independence, we created a new solar solution available to every Vermonter: Community Solar Array (CSA). A CSA can provide for about 30 homes with no upfront cost and savings every year compared to your annual utility cost of electricity. With membership in our CSA, you've joined a new, renewables-driven community helping to build our clean energy future. Landowners with just an acre of available land can help others in their community support solar by hosting a Community Solar Array. SunCommon handles the permitting and logistics and assembles the membership through our community outreach model.

<p>USA Solar Store www.usasolarstore.com dave@usasolarstore.com 802.226.7194</p>	<p>Proctorsville, VT</p>	<p>Founded in 2001, community solar since 2015</p>	<p>Residential and Commercial remote group net metered solar fields available. 30 year warranty and maintenance. Customers own the components, we own the land. Perfect for small businesses and others that have challenging sites. Competitive pricing-great tax advantages for businesses. Financing available.</p>
