The Lovely Looks of Lebanon Quest

Lebanon, New Hampshire
Easy
Architectural, Historical
Pavement
:45

To get there: This Quest starts at Colburn Park, the park on the central green. Follow the clues to learn about lovely downtown Lebanon!

Clues:
Take a tour of Lebanon's architectural scenes
With just a short walk from the Lebanon Green.
Start at the spitting cherub, center of the green
Head southwest, this first building can be seen!

1. Old white paint covers my walls,
I have green shutters thin and tall.
I am an old and simple shrine,
A fish adorns this roof of mine.
My 12 over 12 windows are simple and few,
Four columns in front will welcome you.
Near my top, four goblets made of stone,
Sit by the bell—all on their own.
Head back to the fountain and see if you can find
This building is one of a kind.

2. I have arched doors and 20 over 20 windows,
And a big flag that moves when the wind blows.
On my top is a silver dome
and a clock that tells you what time to go home.
Two doors down to the right
Check this place out, it is quite a sight!

3. I've got weapons on my roof, cannonballs on my lawn,
I celebrate memories of soldiers who are gone.

A Roman Arch on my porch, words in my wall,
A soldier in front who stands proud and tall.
Stroll around the green to the right and look
This lovely place has more than one book!

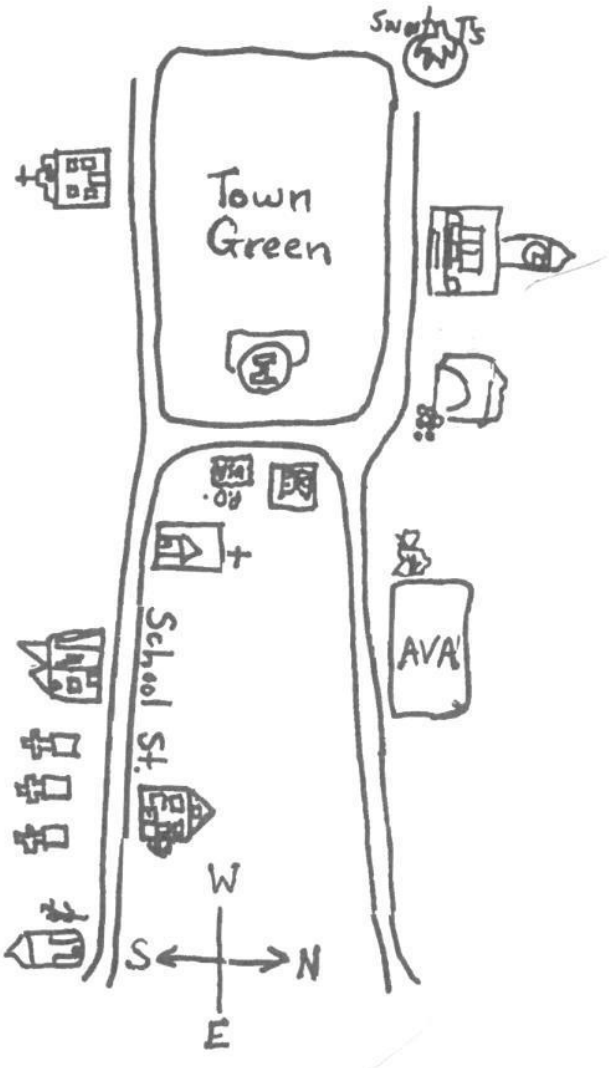
4. Corinthian columns you will see.
A rainy day, or skies of blue
So much to discover, there's something for you.
Cross the street at the cross walk marking
Pass by the Post Office, keep on walking.

5. I have a pointed roof,
Have a look, take a stop.
Gothic windows you will see,
on a building plain, some creativity.
Have a look for me.
The curbs are steep, so watch your feet.

6. I've got scalloped shingles on my 2nd floor,
At School Street you'll find me at number one-four.
I'm fancied up painted in pink and green,
Look a little bit closer-something odd can be seen!
And right next door….

7. Standing in front and looking at me,
Among others is a lesson in geometry.
A triangular roof slopes towards my floor,
And at my front is a rectangular red door.
Through many square windows look into me,
And find a color mosaic transparency.
Find the crosswalk, cross the street, safe and easy.
Continue walking, almost to the fire station,
Turn back and take it all in, no need for consternation.

8. Stroll to the back of the church, stop in the resting place.
Slow down, don't make haste.
Markings of marble lend some sense,
I also have a white picket fence.
The grass is green all around,
and you cannot hear a sound.
Time to depart this haven,
Turning back, you're not mistaken

9. Head back between the church and fence,
Go until you reach the edge
Right into the parking lot, along the fence line,
To the historic building with the music school sign.
The Kendrick-Wood House, now has a community mission,
Was built in the Federal style with Colonial Revival additions


10. Walk around it, for over 150 years this was a family home,
Now the Upper Valley Music Center, it's become reknown.
You've come to the end; you've made it this far.
Find the green bench, the box is near where you are!
Look for the box at the base of the lilac tree.
Then the riddle you've solved, most successfully!
