

Washington Street Quest

Keene, New Hampshire

Easy

Historical

Pavement

:40

To get there: Go north on Main Street in Keene, NH, from the intersection of Routes 12 and 101. Continue on Main Street and bear right at Washington Street. Go straight down Washington Street and park near the Benjamin Franklin Elementary School. This school is the starting point of the Quest.

Clues:

I flew a kite and got a ZAP!
This is where you'll start your map.
In 1907 is when I was built
From September to June
I'm filled to the hilt.

Across the street and one block down
Is where my house can be found.

Go far south
Down and across the street
You will see my trees of three
And the numbers above my door
That read 1833.

I'm on a circle that's called a square
The city planner can be found there.

North, across the street gets you there,
At this house criminals beware.
On the northeast corner there is a stone
It's carved with writing, the meaning unknown.

This is the home of unfortunate fates
Find the oldest stone within these iron gates.

North is the rise, the end of the quest
All you have to do is ask at the desk.
