**SUPERQUEST 2017**

As you complete the Super Quest, use this tree guide to help identify the trees you encounter along the way. As stewards of our forests, we ask that you leave the woods better than you found them and pack out any trash you find.

**HAPPY QUESTING!**

This year’s Super Quest was designed in honor of the beloved Miraculous Trees Quest, written by Ted Levin and Steve Glazer in 2000. The Quest ended at a mature American chestnut tree, the last known tree in the region. The tree finally succumbed to the chestnut blight in 2016, causing us to close this Quest.
