From May 1 through November 1, follow these 10 Valley Quests to find treasure boxes containing specially carved stamps. These stamps fit together like a puzzle, making a finished print as pictured to the right. Collect all 10 stamps to earn a special Super Quest patch and be entered to win our grand prize!

READY TO GET STARTED?
First, register your team online at VitalCommunities.org/SuperQuest. Then complete the Valley Quests listed below and print the stamps inside this sheet. All the Quests are available for free on our website (VitalCommunities.org/ValleyQuest). The starred Quests are also found in our Best of Valley Quest book.

1. **THE FLOODPLAIN QUEST**
   Haverhill, New Hampshire
2. **THE STRAFFORD WATERSHED QUEST**
   Strafford, Vermont
3. **UNION VILLAGE QUEST**
   Thetford, Vermont
4. **FLAT ROCK QUEST**
   Orford, New Hampshire
5. **BARNARD ACADEMY FOREST QUEST**
   Barnard, Vermont
6. **THE ENERGY QUEST AT BOSTON LOT**
   West Lebanon, New Hampshire
7. **THE QUEST WHERE THE RIVER AND MILL COMBINE**
   Lebanon, New Hampshire
8. **BEAVER BROOK QUEST**
   Brownsville, Vermont
9. **MUCKROSS QUEST**
   Springfield, Vermont
10. **SUNAPEE HARBOR QUEST**
    Sunapee, New Hampshire

Valley Quest is a collection of more than 150 treasure hunts that teach and share the natural and cultural history of the Upper Valley region with children, families, adults, and visitors. Valley Quest is a program of Vital Communities, a regional nonprofit working to engage citizens, organizations, and communities in creating solutions to our region’s challenges. Learn more at VitalCommunities.org.
The White River begins near the crest of Vermont’s Green Mountains and flows 60 miles before it meets the Connecticut River at White River Junction. The three branches of this river host an array of sparkling swimming holes and rock formations as they wind through especially hilly terrain. This subbasin connects the quaint towns of Sharon, Royalton, Bethel, Randolph, and many more.

The Wells River both starts and ends in its own subbasin. Here you’ll also find the Ammonoosuc River, which flows to the Connecticut River all the way from its headwaters in the “Lakes of the Clouds” on the western slopes of Mt. Washington.

The Mascoma-Black-Ottawaquechee massive subbasin is host to five large Connecticut River tributaries: The Mascoma, Sugar Ottowaquechee, Black, and Williams Rivers. The New Hampshire side boasts the highest concentration of lakes in the region, including the largest, Lake Sunapee, where Sugar River gets its start.

As stewards of our watersheds, we ask that you leave the water and land better than you found them and pack out any trash you find.

Happy Questing!
