Physical Difficulty: Easy
Special Feature: Historical
Walking Condition: Pavement
Duration: 0:45
Bring: Compass

To get there: Colburn Park is the park on the downtown Lebanon Green about 5 miles south of Hanover on Rte. 120.

Clues:
Welcome to our Valley Quest.
Please walk our map to our treasure chest.

1. Our map takes you places around our town green.
Enjoy the stops that are part of our Lebanon scene.

2. Look across the road and look for a clock big and tall.
Go to it; you’ll feel very small.

3. Make a left past the gas station and down the road a bit to the brick building.
That’s for recreation with steps where you can sit.

4. Go back to the corner. Take a left. Go up to the big yellow building.
There you’ll see a gallery where some people get their salary.

5. Go back up to the corner. Take a left. Go up to that first building.
You can go here to get a book or take a look.

6. Go across the street to the middle of the park and face Three Tomatoes.
Go to the place Three Tomatoes is in. (Hint: Go northwest. This place rhymes with ball.)
7. Pass Village Pizza, then cross the road. Heading north is where you should go. But take a look before you start and see the place with the big heart.

8. Walk in front of the big brick church, and continue to a small park on a small hillside created to honor Lebanon’s first city historian. The water feature is another type of fountain, along with the others near the Green, which remembers when Lebanon was called the City of Fountains. The treasure box is beneath the evergreen.
